PROFILE

Technology practitioner in software development, AI, DevOps and SRE with ~8 years in management positions. Remaining hands-on keeps him connected to execution teams and their complex challenges; pairing that understanding with storytelling and insightful data, he surfaces critical issues to upper leadership — leading to better-informed decisions that improved deployment success rate and team engagement.

EXPERIENCE

ServiceNow — Montreal, QC

Director, AI Engineering Management — Mar 2026 – Present

Sr. Manager, Machine Learning Infrastructure — Sep 2023 – Mar 2026

EXFO — Quebec, Canada

Software Development Manager — Jan 2023 – Sep 2023

ServiceNow — Montreal, QC

Technical Manager, Infrastructure & SRE — Jan 2021 – Jan 2023

- Technical leadership of SRE/DevOps; SaaS hosting of AI workloads on a Kubernetes/Azure platform.

Element AI acquired by ServiceNow — Montreal, QC

Technical Manager — Mar 2020 – Dec 2020

Octave Group — Montreal, QC

Director, SRE — Feb 2019 – Mar 2020

- Owned the global technology budget and AWS spend management.
- Led and grew the SRE team — SysAdmins, DBAs and DevOps.

Team Lead, SRE — Dec 2016 – Feb 2019

- Managed the operations team and production delivery of applications and service platforms.
- Led the observability project (Prometheus, Grafana, Dynatrace, Sumo Logic) and a POC for production workloads on Kubernetes (AWS EKS).
- Built a CMDB recording production deployments (Python, API Gateway, Lambda, RDS-MySQL); implemented a deployment quality improvement process.

Linux Automation Specialist — Feb 2016 – Dec 2016

- Deployment automation (Python, AWS, Docker, Mesos) and observability (Prometheus, Grafana).

Ubisoft — Montreal, QC

DevOps Specialist — Sep 2015 – Feb 2016

- Automated cloud provisioning and deployment pipelines (Python, Chef, AWS); release manifest publication process (S3, Lambda).

Dassault Systèmes — Montreal · Ohio · Washington

Consultant, Infrastructure & Deployment — Apr 2007 – Nov 2015

- **Honda R&D Americas** (2012–2015): ENOVIA V6 deployments and operations, Ant/Jenkins automation, defect RCA, incident response.
- **Boeing** (2007–2010): observability, performance analysis, capacity planning, automated performance testing.
- Managed a QA team of 8; ran spec review workshops between QA and Dev, test strategy and effort planning.

Earlier — Montreal, QC
